

## Permission Advice

### First aid & medical emergencies:

Indigo Kids requires members of staff to train in first aid in order that we have two or more first aiders on site when children in attendance at clubs.

Indigo Kids will act in the best interest of the child and administer appropriate care as required. Should care require more than basic first aid, the main carer will be notified and emergency services contacted.

Indigo Kids maintain an accident record at all times, any accident record pertaining to your child must be signed by you as the main carer, and as the main carer you can request a copy of said record.

In order that we can carry out first aid, Indigo Kids requires your permission as the main carer. If you agree/consent to Indigo Kids assisting in first aid or medical emergency whilst your child is under the care of Indigo Kids on premises or outside as a group, sign this permission advice. Should you not give permission please state your intentions and what actions you wish Indigo Kids to take in event of a first aid or medical emergency.

Name of Child.....

I do / do not give Indigo Kids permission to give first aid treatment in the event of a first aid or medical emergency.
